EDUCATION

University of Pittsburgh, Pittsburgh, PA

Expected April 2027

Candidate for B.S. in Computer Science and B.S. in Economics

GPA: 3.8

Extracurriculars: Ski and Snowboard Club (VP), Pitt Powersports (T), German Club

WORK EXPERIENCE

SAP – Software Engineering Intern (STAR)

Experience Generation (Palo Alto, CA)

May 2026 - Present

- Architecting and shipping full-stack features for SAP's Experience Generation platform, AI tooling supporting Forward Deployed Engineering (FDE) engagements with enterprise customers, using React, GraphQL, and LangChain-based agentic workflows.
- Spearheading greenfield development of a collaborative "Project" workspace feature, enabling customer teams to co-work across generated reports, dashboards, and simulations platform-wide.

Experience Engineering (San Ramon, CA)

May 2025 - Apr 2026

- Developed and shipped native iOS features across 30+ enterprise apps for SAP's 112,000 global employees, using Swift, SwiftUI/UIKit, and the SAP Fiori iOS SDK.
- Owned bug investigations end-to-end, working directly with reporting employees to reproduce issues and validate fixes across the app portfolio.

CoE Analytics (Newtown Square, PA)

May 2024 - Apr 2025

- Built and shipped an internal BTP tool automating key "expensive statement" data-processing steps, generating reports and slide-decks for performance investigations, replacing manual CSV analysis workflow.
- Cut per-case turnaround from ~1 hour to minutes for 100+ support engineers investigating cases for SAP's largest enterprise customers; now maintained by the team.

Narberth Community Food Bank – Community Volunteer

2022 - 2024

- Prepared bags of produce, refrigerated goods, and nonperishable goods for guests. Trained other volunteers.
-

PROJECTS

Steam Game Recommender: Collaborative-filtering recommendation engine using SGD and ALS matrix factorization on implicit feedback (Python, Pandas, NumPy). ALS with k=200 latent factors achieved a 264% lift in hit rate@10 over a popularity baseline at 99.36% sparsity.

Cleanup Crew: Top-down action game in Rust/Bevy, featuring custom ECS architecture, physics, and procedural generation. Built with an 8-person team in weekly sprints for CS 1666. Published on Steam with 1,500+ demo downloads.

Trust Circle: Group savings platform where friends contribute toward shared financial goals. Built with React, Flask, SAP HANA Cloud, and SAP AI Core with OpenAI models. Winning project at SAP STAR Hacks 2025.

GTB Solver: A real-time Fabric mod (Java) that parses Guess-the-Build hint text and injects clickable chat guesses from a matched word bank. Distributed via GitHub releases, with community word-bank contributions via GitHub Issues.

EXTRACURRICULARS

Vice President of the Pitt Ski and Snowboard Club

Sep 2023 - Present

- Organizing and managing 6 ski trips annually for 750+ students, overseeing a \$30K annual budget and logistics.

Violist in the Philadelphia Sinfonia

2018 - 2023

- Performed at multiple concert venues including Verizon Hall and the Temple Performing Arts Center.
 - Raised money for annual food drive with World Central Kitchen to support relief efforts in war torn regions.
-

SKILLS

Languages: Java, Rust, Python, Swift, C, JavaScript, LaTeX, HTML/CSS, SQL, GraphQL, English, German

Libraries and Frameworks: LangChain, LangGraph, React, SwiftUI, Node.js, Pandas, NumPy, PostgreSQL, Flask, Bevy
